

PETITION

I (We), the undersigned

Strongly oppose the re-stocking of the Spectacle Island aquaculture Site #0835 by Cooke Aquaculture, for the following reasons:

- **the poor flushing rate of the bay**
- **the proximity to several pristine beaches - Hunts Point Beach, Summerville Beach, Carter's Beach, Wobemkak Beach, South West Port Mouton Beach, and Spectacle Island Marine Park (Matthew Atlantic)**
- **the adverse effect upon the pristine and invaluable beaches and sites - ecologically, environmentally and economically.**
- **We believe that the area represents far greater value for its tourist potential and as a valuable lobster fishing ground and shell fishery.**

We also support the ecosystem recovery, monitoring proposal - a partnership between Dalhousie University and the Friends of Port Mouton Bay.
