One of the best ways to practice chord transitions is to strum through a I-IV-V progression. Here are the I-IV-V progressions mapped out for the common guitar keys.

(Hint – you can use the 7th form of the dominant (V) chord...)

Key	I	IV	V	I
C	C / / / /	F / / / /	G / / / /	C / / / /
G	G / / / /	C / / / /	D / / / /	G / / / /
D	D / / / /	G / / / /	A / / / /	D / / / /
A	A / / / /	D / / / /	E / / / /	A / / / /
E	E / / / /	A / / / /	B / / / /	E / / / /
